

# MagJigs

## Applications: Woodworking, Fixturing, Clamping, Welding

Magswitch MagJigs are a fixturing clamp that will easily secure your fixture into place. Rotate the knob to turn on and off for magnetic hold force. With the Magjig, simply drill a hole in a fixture and place the MagJig in to use for downward pressure clamping.

- Holds flat and round surfaces of steel
- 3/4" standoff for flush mount
- Designed with screw holes to add more security in a fixture
- Excellent for woodworking, welding, and fabrication
- Magnet turns completely On and Off
- Magnet stays clean
- Does not use an electrical power source
