OWNER'S MANUAL

Alemlube Tyre Inflator with Gauge

51201N

March 2025

DESCRIPTION

NOW CERTIFIED

The Alemlube 51201N tyre inflator with gauge is heavy duty with an aluminium die cast body, impact absorbing bumpers and spiral protected air hose. Ideal for automotive, industrial and trade use, the 51201N incorporates slim ergonomic design features and is easy to use when inflating or deflating.

Highly accurate, the 51201N with its magnified sight glass clearly indicates dual scale pressure readings of 0-150psi and 0-1050kPa. Quality manufacturing and robust construction ensures dependable and trouble-free day-in, day-out use.

WARNING

Please read this important information carefully before use.

USE ONLY WITH REGULATED AIR SYSTEMS.
Do not exceed 120psi maximum.
Check tyre pressure often while inflating.
Inflate to tyre manufacturer's recommended pressure only.
Over-inflation and under-inflation of tyres can create potentially hazardous driving conditions.
Wearing impact-resistant protective eyewear while inflating tyres is recommended.
Always check and set pressure when the tyre is cold.

FEATURES

Body:	Zinc & Aluminium
Air Inlet:	1/4" BSP Female
Operating Pressure:	Up to 90psi
Air Flow:	10SCFM at 100psi

FUNCTIONS

- Fill air (inflation)
- Release air (deflating)
- Gauge pressure (measuring)

SPECIFICATIONS

- Rubber Hose 1/4" 39cm (W.P. W/300psi)
- Gauge : Measure Range
- 0-150psi
- 0-1050kPa
