6320**250ml Oil Can****6330****375ml Oil Can****6340****500ml Oil Can**

May 2026

Introducing the new range of Alemlube oil cans now the new standard in precisely applying lubricants to machinery & parts. The 6320, 6330 & 6340 models are designed for versatility and ease of use, and provides for a wide variety of automotive, industrial, agricultural & workshop applications.

Uniquely featuring both rigid & flexible spouts with each oil can providing you with flexibility to handle any lubricating task in 1 complete package.

The flexible spout is ideal for confined spaces, while the rigid spout provides accurate targeting for exposed components.

Available in 250ml, 375ml, & 500ml storage capacities, they are made from high-quality, oil-resistant materials, these cans are built for long service life in demanding environments & come with a bulletproof 2 year warranty.

The ergonomic design & smooth pump action minimises user fatigue while delivering precise, controlled & consistent lubrication flow.

Whether you're working in an automotive workshop, on a farm, on a mine site or a DIY handyman, the Alemlube range of oil cans have you covered.

SPECIFICATIONS, FEATURES & BENEFITS

- Supplied complete with both rigid & flexible spouts
- Flexible spout allows access to hard-to-reach lubrication points
- Rigid spout enables precise, targeted oil application
- Available in 250ml, 375ml & 500ml capacities
- Durable construction for long service life
- Red powder coat finish that resists corrosion
- Oil-resistant materials suitable for workshop environments
- Ergonomic handle design for comfortable operation
- Smooth pump action for controlled oil delivery
- Leak-resistant design minimises mess and waste
- Ideal for automotive, farm, industrial & general home maintenance use
- Lightweight and easy to handle
- Suitable for a wide range of lubricating oils
