Metered models

August 2026

The Alemlube range of Lockable Diesel Fuel Pods have been designed adopting the very latest diesel fuel tank design cues resulting in a practical, user friendly shape that is easy to handle and versatile in its application.

Australian made & designed, these locally manufactured tanks are made from a heavy duty & robustly constructed polyethylene and have a 15 year warranty* as proof of quality.

Each dispensing kit comes complete with a Piusi 12V diesel pump, 4m of antistatic fuel delivery hose, 2 metre battery cables, an auto shut-off nozzle and a built in nozzle holster.

The Lockable Diesel Fuel Pods kits are available in four sizes, 100L, 200L, 450L & 600L capacities. There are two models per size, one with a standard auto shut-off nozzle & one with a metered auto shut-off nozzle (51039M) included.

For extra convenience, the metered models assist in the accuracy & the amount of diesel fuel dispensed.

The unique design of this new range allows the hose & nozzle to be fully usable even when the lid is closed and locked. Internal baffles aid tank stability and in addition increases security of dispensing kit components and diesel management. This feature also reduces foreign particles and other elements from contaminating the pump housing compartment when in use.

Ideal for carrying in the back of a ute or in a service vehicle, the Lockable Fuel Pods are easily transported from one location to another & provide a convenient on demand system for diesel refuelling and diesel fuel transfer wherever the need arises.

SPECIFICATIONS, FEATURES & BENEFITS

- Self-priming Italian Piusi 12V pump with on/off switch
- Unique user friendly design with lockable lid to aid diesel fuel and dispensing kit security
- Internal baffles aid tank stability
- Australian made, heavy duty, robustly constructed polyethylene diesel tank
- Dispensing kit consists of a Piusi 12V electric pump, 4m antistatic fuel delivery hose, 2m battery cables & automatic shut-off fuel nozzle
- Forklift lift points & tie down capability
- Suitable for storing & dispensing diesel fuel only
- Auto shut-off nozzle or metered auto shut-off models available
- Suits most single & twin cab utes (check dimensions)
- Dispensing rates of up to 40L/min
- Suitable for storing & dispensing diesel fuel only

Also available: 800L, 1,000L & 1,200L models
