

40040PA**400L Diesel Fuel Storage & Dispensing Kit**

February 2026

The **40040PA** diesel fuel storage & dispensing tank kit consists of a heavy duty Australian made Alemlube polyethylene 400 litre tank and a Piusi 12V diesel pump.

The dispensing kit includes the 52000A 12V diesel fuel pump with 4 metres of antistatic fuel delivery hose, 2 metres of battery cable, a stainless steel & brass fuel filter and an automatic nozzle.

Ideal for positioning in the back of a Ute or in a service vehicle, the 40040PA diesel fuel storage & dispensing kit is highly visible and easily moved from one location to another (when empty) and provides a convenient, on demand system for refuelling and diesel fuel transfer wherever you are.

A must for all industries & trades.

SPECIFICATIONS, FEATURES & BENEFITS

- Patented self-priming rotary vane pump manufactured in Italy is capable of delivery rates of up to 50LPM
- 400L capacity polyethylene tank weighing just 32kg cannot dent, scratch or corrode
- Tank baffles aid vehicle stability & safety
- Pallet lift points & recesses for tie down straps on the tank aids handling and installation
- Tank dimensions are 800mm (W) x 1630mm (D) x 635mm (H)

Also available:

40040PAM As above but with
51039M metered auto shutoff nozzle
200L & 600L tanks also available
