

Austlift Roofer's Kit – Component Breakdown

COMPONENT	QTY	IMAGE	DESCRIPTION
A = Anchor Point Anchor Sling	1		- Material: high tensile polyester - Length: 1.5M - Width: 20mm - Rated load: 2.45T
B = Body Support Tradesman Harness	1		- Large upright dorsal d-ring (MBS: 23kN) - Alloy steel connection and buckles (MBS: 15kN) 44mm wide polyester webbing
C = Connector Fall Arrester: 12mm x 15M kernmantle rope with rope grab and shock pack attached. Triple action karabiner one end and abrasion resistant thimble termination, stop knot on other end.	1		Kernmantle Rope 15M Triple Action Karabiner - Material: alloy steel - Gate opening: 21.5mm - MBS: 45kN Rope Grab - Material: Aluminium Alloy - MBS: 15kN Quarter Turn-Locking Karabiner - Material: alloy steel - Gate opening: 17mm - MBS: 22kN Shock Pack - Width: 44mm - Material: polyester webbing - Maximum free fall: 2M
Backpack Dry Bag	1		- Capacity: 35 Litres - Waterproof
