ZXCS16 Battery Charging Station

COAZXCS16 - 813063

DESCRIPTION

Meet the ultimate charging solution for high-demand environments: the COAST ZXCS16 Charging Station.
Designed for high-demand environments such as workshops, service vans, tool fleets or busy job sites, the COAST ZXCS16 provides a powerful bulk-charging solution for your rechargeable battery ecosystem.

This recharging station features 16 USB-C ports and is engineered to charge ZITHION-X AA and AAA batteries quickly and efficiently. Each of the station's four quadrants delivers up to 4 amps of power, optimizing charging speeds for up to 16 batteries simultaneously.

Whether you're managing multiple devices or equipping a team, the ZXCS16 offers smart, streamlined charging storage — all backed by COAST's professional-grade reliability.
