The Rail cut-off wheel line consists of Type 41 straight 350-406mm diameter wheels, designed to fit on petrol & pneumatic power saws that are mounted on a rail track clamp.

The primary applications is for cutting rail track.

The Flexovit rail cutting range is suitable for hard, medium and normal rail hardness.

Rail Cutting - Hi-Speed (100m/s) portable cut-off saw

- A30Q Aluminium oxide medium grit medium hardness
- Easy cut reinforced straight wheel for cutting off
- Designed for use on rail track steels
- Durable resin bond designed for fast cut while retaining excellent wheel life

Rail Track Steels

METAL

SIZE (mm)	MAX. RPM	PACK QTY	PRODUCT #	BARCODE #	SUMMARY
350 x 3.8 x 20.00	4,800	10	66252841631	9314188016298	"High performance wheels for rail track cutting"
350 x 3.8 x 25.40	4,800	10	66252841632	9314188016373	

Rail Cutting - Hi-Speed (100m/s) portable cut-off saw

- ZA24Q - Aluminium oxide/Zirconia blend coarse grit medium hardness
- Easy cut reinforced straight wheel for cutting off
- Designed for use on rail track steels
- Durable resin bond designed for fast cut while retaining excellent wheel life
