AEROSOL - WORKSHOP

The Heavy Duty Viton® Seal Pressure Sprayer

Features a Viton® seal, a robust body crafted from durable and impact-resistant HDPE plastic and a high-pressure, long-lasting pump spray mechanism tailored for rigorous & repetitive use. A simple press of the spray button delivers a consistent, fine mist, with adjustable control via the nozzle nut. With its solvent-resistant design & a generous 1-litre capacity, this ergonomically sized handheld Pressure Spray is perfect for a range of applications including:

- Brake Cleaner Solvents
- Tyre Shine • Anti-Spatter Liquids
- Degreasers.

Note: Each sprayer comes with a pre-installed Heavy Duty Viton® Seal Kit, which can also be purchased separately.

Part # KB-1026 **Part # KB-1026-1-Gasket**

Industrial Pressure Sprayer 1L

Highly recommended for hydrocarbon based harsh chemicals such as brake & clutch cleaners, tyre shine, degreasers, xylon, diesel & turpentine. 900ml liquid capacity, higher grade green FKM seals, polyamid body – HDPE bottle, adjustable full cone nozzle, 3 Bar / 45 PSI working pressure, safety pressure release value, ergonomic design.

Brake Clean

Molytec Brake & Parts Cleaner is a blend of solvents which safely remove grease, oil and brake fluid from brake drums & linings.

20L - **M906**

Acetone

Molytec Acetone is a universal thinner and cleaning agent. Which is fast evaporating, non-corrosive and leaves no residue.

20L - **M925**

Mineral Turpentine

A hydrotreated light distillate of petroleum, consists of a complex mixture of highly refined hydrocarbon distillates. Can be used in paints, lacquers & varnishes. Is the most widely used solvent in the paint industry. In households, it's used to clean paintbrushes after use, auto parts & tools. Removes adhesive residue from non-porous surfaces & for many other common tasks.
