

# Nickeltec Anti-Seize

Molytec Nickeltec Anti-Seize is a nickel based anti-seize compound. Developed to protect metal parts from corrosion, galling and seizing. Nickeltec eases assembly & disassembly of slip fit and threaded joints. Formulated for severe environments, these products protect against high temperatures up to 1450c.
DOES NOT CONTAIN GRAPHITE.

# Features & Benefits:

**High Temp Resistance**
Formulated with high quality grease and solid lubricating agents for optimal temperature resistance up to 1450c.

**Seals Against Corrosion**
Displaces and seals against contact with moisture and other corrosive liquids.

**Reduces Friction & Wear**
Reduces metal-to-metal contact resulting in less friction & wear.

**Extreme Chemical Resistance**
Perfect for applications in chemical plants, oil refineries and water / sewage plants.

**Packaging**
7 different sizes available, tub, brush top tin, tubes, pail and aerosol.

# Uses:

- General purpose machine and bolt assembly
- Nuts, bolts and studs
- Stainless steel applications
- Copper free environments
- Pumps and valves
- Marine applications
- Excellent in harsh chemical environments
- Flanges, extruders and dies
- Steam turbines

25g Pod (pack of 6) - **M902**
65g Tube - **M901**
225g Brush Top Tin - **M831**
225g Tube - **M891**
450g Brush Top Tin - **M825**
2kg Pail - **M826**
300g Aerosol - **M868**
