Premium RTV Silicone

Ultraloc Premium RTV Silicone is a third-generation top grade room temperature vulcanized silicone sealant. It is a natural, non – corrosive and eco-friendly sealant. It is rapid prototyping to seal surfaces solid, it possesses anti-acid and anti-alkali. Oil resistance is much better than regular rubber sealants in achieving the effect of solid sealant caulk permanence.

Application: Used in high strength structural sealing. Static sealing for engines, cover plates, oil pans, high pressure resistance & high temp resistance flanges, value bushes for the automotive industry. It can also be used in the plant sealing of electric, chemical & mechanical equipment.
