PACIFIC HOISTS
SINCE 1976

Pacific Skoots (Pair)

Pacific Skoots are a pair of hydraulic furniture moving skoots designed for lifting and transporting heavy, bulky items such as switchboards, cabinets, wardrobes, and other large rectangular objects. The system raises the load off the ground to enable controlled movement and positioning with reduced manual handling.

Items must be secured using straps provided during operation.

Actual product colour may differ from image.

Features:

- Designed for switchboards, cabinets, wardrobes, and other large rectangular loads
- Foam rubber–padded support surfaces to help prevent damage to goods
- Lightweight alloy wheels featuring integrated guards for improved durability, protection and manoeuvrability
- Load stability achieved through dual-unit lifting and correct load positioning
- 180° swivel steering handles for controlled multi-directional movement
- Hydraulic pump system for raising platforms
- Manual release valve for controlled lowering of load
- TÜV certified and compliant with EN ISO 3691-5 and Machinery Directive 2006/42/EC
