BT / BOSSWELD Glove Saver Aluminised Kevlar

DESCRIPTION

BT/Bossweld Glove Saver Aluminised Kevlar is designed to provide additional radiant heat protection, ensuring your hands stay safe from extreme temperatures.

Featuring an aluminised reflective kevlar back, this innovative design minimizes the risk of burns and helps you maintain a comfortable working environment.

To further enhance durability, the BT/Bossweld Glove Saver Aluminised Kevlar is equipped with a chrome leather palm. This not only increases the lifespan of the glove but also ensures exceptional comfort during prolonged usage. Additionally, the cut-off thumb allows for better dexterity, enabling you to handle intricate tasks with ease.

We understand the importance of a secure fit, which is why this glove comes with an adjustable velcro strap. This ensures a snug and customized fit, giving you peace of mind while you focus on your work.

Whether you are left-handed or right-handed, our BT/Bossweld Glove Saver Aluminised Kevlar is available in both variations. Say goodbye to ill-fitting gloves and enjoy a perfect fit with our range of options.

Designed to fit most standard welding gloves, the BT/Bossweld Glove Saver Aluminised Kevlar offers unmatched protection and versatility. Upgrade your welding gear and experience the difference in safety and comfort with this exceptional product.
