Grip form

The new handle is designed specifically for comfort and ease of use.

Tempered blade sleeve with fin end

At 1.0 mm thick, the hardness of this sleeve is more than double that of existing stainless steel blade sleeves. This sleeve's iconic FIN design is not only durable, it offers additional functionality in opening and prying.

Super Hard Tip

The extended blade sleeve holds blade sturdily, preventing blade breakage.

A blade-sliding mechanism built for precision

DFC671N-R1

Slider movements can be felt in hand when moving back and forward. Compared to existing slider feature, this tool gives more precise feeling from the grip to hand.

ROCK HARD® FIN™

- Tempered blade sleeve; the hardness level is 2x more than existing stainless steel sleeves
- Durable super hard tip
- Iconic FIN design provides added functionality in opening and prying

In-handle blade storage

Pre-loaded with two spare blades located in the convenient in-handle storage compartment
